WORK EXPERIENCE

AMC NETWORKS

December 2022 – Present

Lead Product & Engineering Manager

New York, NY

- Currently managing product strategy and directing technology for all of AMCN's global digital platforms (AMC+, Acorn TV, Shudder, Sundance Now, Allblk, AMC, BBCA, WEtv, IFC and Sundance TV).
- Led successful launch of flagship product (AMC+) with continued global expansion (Canada, Australia, and New Zealand) and additional features, ad-supported tiers, MVPD partners, and broadband providers to expand reach and revenue.
- Partnered with key distributors including Samsung, LG, Comcast, Vizio, Microsoft, and Sony to oversee integration and product strategy.
- Implemented strategy to test and track feature success to enhance user experience. Improved operations for digital products and increased service continuity minimizing production issues.

Lead Streaming Engineering Manager

May 2022 – December 2022

- Team lead of engineering for AMC's streaming platforms, focusing on ensuring the company's consumer product experiences meet the rising expectation of the customer and expected growth of subscribers.

TRANSPERFECT

September 2017 – August 2022

Senior Product Engineering Manager | Marketing and Communications

New York, NY

- Senior Product Lead working with internal Marketing and Communications teams alongside external clients to build custom solutions. Led teams of engineers, architects, and designers to deploy integrations to existing TransPerfect assets and family of company properties on a global scale.
- Collaborated with executive leadership on global scale to develop dynamic multifaceted platforms for Fortune 500 companies, enabling seamless access to MSA services, technology tools, accounts, and resources.
- Directed and presented training and professional development workshops for global sales divisions to make company-wide sales practices more efficient.

Front End Engineer

October 2013 – September 2017

- Oversaw team that developed custom in-house front end website builder tool for sales teams, streamlining the design / review process and drastically expediting time between production and launch across 30+ languages.
- Custom built internal PHP systems to consolidate and integrate leads from worldwide channels to SugarCRM.

DUO AI

November 2016 – May 2018

Co-Founder

New York, NY

- Co-founded Duo, an AI computer built just for your home. Talk to it, play music, stream videos, control lights, play games, and experience your home like never before.

DISPATCH CITY

Front End Development - UX and UI

March 2014 – December 2015

New York, NY

- Dispatch City is the easiest way to discover, rate, and review on-demand services. Over 100+ providers in 10+ major cities cover everything from groceries to dry cleaning.

WHISKBOX

Development & Design

January 2014 – March 2015

New York, NY

- A simpler, less-wasteful way to bake. By streamlining each recipe and pre-packaging higher quality ingredients whiskbox is a baking kit that is easier, healthier, and more enjoyable for all ages.

SEAMLESS

Creative Direction

March 2014 – November 2014

New York, NY

- Creative direction for Seamless “Tap Tap Takeout” Campaign. Bold typography juxtaposed with common takeout foods to convey the simplicity of ordering food through the Seamless app.

RUDER FINN INC.

Marketing Manager Assistant

June 2013 – September 2013

New York, NY

- Responsible for creating innovative and engaging brand experiences for markets and customers around the world.

HBO

Marketing Assistant

June 2011 – August 2011

New York, NY

- Marketing Assistant for HBO miniseries Mildred Pierce through production company Killer Films. Worked with various aspects of post-production digital promotion.

OTHER WORKS

APPLE MIRROR

- Created a fully functioning smart touchscreen mirror based on Apple’s iOS 10. Featured in over 30+ publications in 15+ languages around the world from Business Insider to GQ, has over 8 million views and 80k shares on social media.

EDUCATION

City University of New York CCNY – The City College of New York

Bachelor of Arts (BA) in Digital Design and Multimedia, Dean’s List

2009 – 2013

New York, New York
